Objective

A Diploma in Information Technology, possessing a strong foundation in various aspects of IT including software development, system testing, database management, cyber security and networking. I am eager to contribute to innovative projects across the broader ICT spectrum, while continuously expanding my skills in emerging technologies. With hands-on experience in front-end and back-end development, and team collaboration, I am looking for opportunities to make a meaningful impact in diverse ICT roles.

Experience

- Kamstar.tech** January 2024 - Present, Remote -
Software developer
Currently working as a full-stack developer using Laravel and React with Inertia.js and Vue.js.
Spearheading both front-end and back-end development to ensure scalable and high-performing web applications.
Implemented several features and optimizations across multiple projects.
- Kamstar.tech** -
Tech Lead
Led a small team of developers to deliver key projects within tight timelines.
- Probase Zambia** -
Software developer (Internships)
Managed database operations and gained insights into large-scale software systems.
- Kamstar.tech** -
Software developer (Internship)
Worked as an intern on various software projects, focusing on Laravel for back-end development and Bootstrap for front-end styling.
Gained hands-on experience in full-stack development and contributed to multiple team projects.
- Nikkle.io** -
Software Tester
Conducted extensive system testing to ensure application stability and reliability.
Worked with Laravel and Bootstrap for both front-end and back-end development testing.
Collaborated with developers to identify bugs, ensuring smooth releases.

Education

- Evelyn Hone College of Applied Arts and Commerce** 2021 - 2023
Diploma in Information Technology
- Nakonde Secondary School** 2020
Grade 12 Certificate
- Chinsali Day Secondary School** 2017
Junior Secondary Certificate
- New Kanyama Primary School** 2015
Primary School Certificate

Skills

- Programming Languages: PHP, Python, JavaScript, HTML, CSS
- Frameworks: Laravel, React.js, Inertia.js, Vue.js, Bootstrap
- Databases: MySQL, Postgres, SQL
- Tools & Technologies: Git, Docker, RESTful APIs, Agile Development
- Operating Systems: Windows, Linux (Ubuntu)
- Networking: Basic networking skills with Cisco Certified Network Associate (CCNA L1)
- Development Methodologies: Agile, Waterfall
- System Testing: Manual and Automated Testing
- Learning: Flutter, Swift

Projects

- **Quiz Management System**
Developed a web-based system for managing quizzes, allowing users to create, take, and grade quizzes in an interactive format
- **Results Verification System**
Collaborated with team members to create a system that verifies academic results in real-time, ensuring data integrity and security.

Achievements & Awards

- Certificate of Participation Participated in the Digital Safe Capture the Flag (CTF) competition.
- Cisco Certified Network Associate (CCNA L1) Received certification in basic networking concepts and technologies.

Interests

- Full-Stack Development
- Learning new programming languages and frameworks
- Digital Art & Design
- Reading technology and self-development books
- Video Games

Personal Details

- Date of Birth : 27/02/2003
- Marital Status : Single
- Nationality : Zambian
- Gender : Male
